EXPERIENCE

Full Stack Web Developer Media@Marsons | Islamabad, Pakistan

Dec 2023 – Jan 2025

- Developed and maintained full-stack web applications using Angular and .NET Core.
- Designed and optimized RESTful APIs using Entity Framework, LINQ, and SQL Server.
- Created and managed SQL databases, optimizing queries for improved performance.
- Skilled in back-end development: PHP, MySQL, and integrating databases into web applications.
- Expertise in WordPress: Creating custom themes and plugins, utilizing popular page builders like Elementor / Elementor Pro and WP Bakery.
- Strong collaboration and problem-solving abilities, focused on enhancing user experience through innovative solutions.

.NET Developer & Web Developer Oxygen Soft | Lahore, Pakistan

May 2022 – Nov 2023

- Designed and developed .NET Core and Angular-based web applications.
- Developed desktop applications using WPF and WinForms for enterprise solutions.
- Created and managed REST APIs for seamless front-end and back-end integration.
- Advanced web application design and development for the web platform, specializing in WordPress.
- Expertise in WordPress development, customization, theme development, and plugin creation.
- Proficient in HTML, CSS, JavaScript, and PHP for building responsive interfaces and server side development.
- Skilled in implementing responsive design principles, optimizing website performance, and using version control systems for efficient collaboration.

.Net Developer Intern Oxygen Soft | Lahore, Pakistan

May 2021 – Aug 2021

- Developed and maintained .NET desktop applications, ensuring optimal performance and scalability.
- Collaborated with teams to analyze requirements, design solutions, and enhance system efficiency.
- Implemented features adhering to coding standards, participated in code reviews, and stayed updated on .NET technologies.
- Documented code and processes for seamless knowledge transfer and onboarding.

PROJECTS

AI Tahaluf's

- Developed AI Tahaluf's website using WordPress, incorporating custom themes and plugins.
- Utilized JavaScript for dynamic elements and enhanced user interaction.
- Ensured seamless integration by converting HTML to WordPress.
- Focused on database integrity with MySQL employed for the Database Management System (DBMS).
- Implemented custom features with short-codes and Advanced Custom Fields (ACF).
- Designed for compatibility across devices, aligned with branding, and adhered to industry standards for continuous improvement.

Others

WordPress Development,
WordPress Custom Theme
Development, Firebase, Design
Patterns, Figma Designs

INTEREST & HOBBIES

Reading Books, Browsing,
Coding, Playing Games,

LANGUAGES

English, Urdu,
Hindko,

Simplicity Treading Academy

- Simplicity Treading Academy developed using Wordpress, WP Custom Theme & Plugin.
- Proficient in WordPress, WP Custom Theme & Plugin development.
- Expert in HTML, CSS, and JavaScript for intuitive interfaces.
- Specialized in PHP for dynamic functionality and MySQL integration.
- Ensures database integrity and optimal user experience across devices.
- Collaborates with design tools for visually appealing websites.
Adheres to industry best practices and emphasizes continuous learning.

Gossips Web App

- Gossips Social Platform developed using ASP.NET Core, C#, and Entity Framework.
- Proficient in .NET Core, RESTful APIs, and modern backend development.
- Expert in C# programming for robust, scalable, and maintainable code.
- Specialized in JWT authentication for secure user access and role-based permissions.
- Experienced in database design with SQL Server/PostgreSQL for efficient data management.
- Ensures high performance with caching, async programming, and optimized queries.
- Develops responsive and interactive UIs using Blazor, React, or Angular (if applicable).
- Collaborates with version control (Git) and CI/CD pipelines for seamless deployments.

Online Quiz System

- Developed an Online Quiz System using .NET framework, C#, and Windows Forms.
- Focused on user-friendly interface for conducting and participating in quizzes.
- Implemented secure user authentication and authorization.
- Included registration and login functionalities for authorized access.
- Admin panel for creating and managing quizzes with multiple question types and time limits.
- Integrated backend database for storing user info, quiz data, and results efficiently, with scope for future updates and feature extensions.

QRMF

- QRMF utilized HTML/CSS for UI, ensuring limited presence in developed centuries.
- Responsive design ensured seamless accessibility across devices.
- Robust database structures maintained data integrity, with validated/sanitized inputs.
- PHP applications enhanced medical system functionality, integrating server-side logic.
- PhpMyAdmin facilitated simplified database management, SQL query execution, and optimization.
- JavaScript and Bootstrap added interactivity, responsiveness, with secure authentication mechanisms.
